

Keren Wedel

Full-stack developer with 3.5+ years of experience building and maintaining frontend and backend features in production systems, alongside hands-on involvement in writing automated tests and integrating with CI/CD. Worked on production systems at SAP and Red Hat using Java, JavaScript, and modern frameworks. Strong team player, quick learner, and passionate about clean, reliable code. Finishing a degree in Computer Science.

WORK EXPERIENCE

SAP, Tel Aviv & Ra'anana, Israel — Full-Stack Developer (Student Position)

2021–Present

- Developed features and maintained a customer management platform using JavaScript, SAP UI5, and Java.
- Wrote and maintained automated tests (UI, API, E2E) as part of the development process, using Cypress, Puppeteer, Mocha, and Selenium.
- Collaborated with cross-functional teams to deliver high-quality code to production.
- Optimized test pipelines and integrated them into CI/CD workflows with Jenkins, improving deployment efficiency.

Red Hat, Ra'anana, Israel — DevOps Intern

2020

- Automated deployment tasks using BASH on Linux.
- Developed CI/CD pipelines and container-based deployments with Docker and Kubernetes.

Freelance — WordPress Developer & Digital Marketer

2017–2020

- Developed and maintained WordPress websites using HTML, CSS, and PHP for small businesses and organizations.
- Provided digital marketing, social media management, and business consulting services.
